**A Supercritical New Chapter In Inflammation Modulation\***

New Chapter's patented Zyflamend formulation represents a scientific breakthrough in promoting a healthy inflammation response.\* Recent research studies suggest this may be an effective strategy to promote healthy joint function and normal cell growth.\*

**New Chapter's Supercritical Herbal Extracts**

“Supercritical” means Super Purity, Super Potency, Broad Spectrum, and No Chemical Solvents. We take nature's finest herbs and then extract and highly concentrate (as high as 250 to 1) their precious ingredients. We do not isolate out single ingredients or spike our extracts with synthesized additives. We deliver the wisdom of nature with the complexity and organic nuances of the natural herb preserved for you. In fact, the supercritical process is the gentlest way to extract these delicate plant compounds in a manner to optimally preserve their potency and stability. And when you take New Chapter's supercritical extracts, neither you, nor the environment, have to contend with chemical solvents.

New Chapter has extensively researched the herbal pharmacopoeia and international medical databases and discovered that the following time- tested herbs, properly extracted and blended in the correct proportions, contain a significant number of phytonutrients that may safely and significantly promote a healthy inflammation response.\*

**Holy Basil:** Contains ursolic acid, which significantly enhances detoxification and promotes a healthy inflammation response.\*

**Turmeric:** Unique curcumin phytonutrient complex, synergistic with green tea, significantly multiplying each herb's ability to promote healthy eicosanoid balance.\*

**Ginger:** Supercritical extract modulates both eicosanoid cascades and offers numerous anti-aging constituents.\*

**Green Tea:** Proceedings of the National Academy of Sciences report green tea polyphenols exert a beneficial effect on healthy eicosanoid balance.\* Major university database notes green tea contains 51 phytonutrients that promote a healthy inflammation response.\*

**Rosemary:** Dual extracts offer highly concentrated, full spectrum eicosanoid balance and support detoxification.\*

**Hu Zhang:** Richest known resveratrol source, with each daily serving delivering the approximate equivalent of six glasses of resveratrol-rich wine.

Chinese Goldthread and Barberry: Unique berberine phytonutrient complex, naturally promotes a healthy inflammation response.\*

Oregano: Source of large number of phytonutrient modulators (31) according to USDA database.\*

Baikal Skullcap: Unique baicalin phytonutrient complex, naturally promotes healthy inflammation response.\*

Serving size 2 Softgels

Amount per 2 Softgels

% Daily Value

Rosemary (leaf) 100 mg supercritical extract and 50 mg hydroethanolic extract (min. 34.5 mg total phenolic antioxidants [TPA]) 150 mg •

Turmeric (rhizome) 10 mg supercritical extract (min. 4.5 mg turmerones) and 100 mg hydroethanolic extract (min. 7 mg curcuminoids) 110 mg •

Ginger (rhizome) 54 mg supercritical extract (min. 16.2 mg pungent compounds; min. 4.3 mg zingiberene) and 46 mg hydroethanolic extract (min. 1.4 mg pungent compounds) 100 mg •

Holy Basil (leaf) hydroethanolic extract (min. 2 mg ursolic acid) 100 mg •

Green Tea (leaf) extract (min. 45 mg polyphenols) 100 mg •

Hu Zhang (*Polygonum cuspidatum*) (root and rhizome) hydroethanolic extract (min. 6.4 mg resveratrol) 80 mg •

Chinese Goldthread (root) hydroethanolic extract (min. 2.4 mg berberine) 40 mg •

Barberry (root) hydroethanolic extract (min. 2.4 mg berberine) 40 mg •

Oregano (leaf) supercritical extract (min. 1.6 mg TPA) 40 mg •

Baikal Skullcap (*Scutellaria baicalensis*) (root) hydroethanolic extract (min. 3.4 mg baicalein complex including baicalein and baicalin; and min. 0.08 mg wogonin) 20 mg •

• Daily value not established

Other ingredients: Olive oil-extra virgin, maltodextrin, silica, yellow beeswax, and organic sunflower oil.

Capsule: Gelatin, vegetable glycerine, water, and carob.

Naturally gluten free.

Our premium softgel capsules are prepared without any chemical solvents and are prion free.
